

Topic: “How important should individual responsibility be in the subject of climate change mitigation?”

Groups:

1. Citizen 1: Not important
 - Impact on individual level negligible compared to industry/ the super-rich
 - Responsibility shifting/ Greenwashing
2. Citizen 2: Very important
 - Group conformity
 - Impact of Purchasing decisions, Market demand
3. Social Scientist / Environmental Psychologist:
 - How much would people give up voluntarily?
 - Impact of regulations
4. Politician:
 - Choice of political convictions up to the group
5. Moderator
